

MEMORANDUM

TO: Bethesda Staff and Familyhome Providers
FROM: Brian Davies, Chief Executive Officer
DATE: March 23, 2021
SUBJECT: Operations Update

Dear Staff and Familyhome Providers,

To continue with our practice of providing transparent communication, I want to update you with some relevant information.

A staff member working within one of our residential programs at Fly Road has tested positive for COVID-19. We are sending best wishes to this staff member for a speedy recovery.

Upon our notification of the positive test result the following were implemented:

- Public Health were notified of all staff and individuals coming into close contact with this staff;
- Public Health have advised that no staff are required to isolate on this occasion; and
- One individual has been placed into isolation and is being continuously monitored.

As an organization, we have done a tremendous job dealing with COVID-19 and ensuring the safety of the individuals we support and each other; this is because of your diligence in following all of the required protocols. I would like to encourage each of you to continue being vigilant and, if you haven't already, to book an appointment for your COVID-19 vaccination, when eligible.

Thank you once again for your dedication and hard work during these challenging times.

Respectfully,

Brian Davies
